

NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW YOUR HEALTH INFORMATION MAY BE USED AND DISCLOSED AND HOW TO ACCESS THIS INFORMATION.

PLEASE REVIEW IT CAREFULLY.

If you have any questions about this notice, please contact **Billing Dept** of our clinic at **302-525-4343, 19A Haines St, Newark, DE 19711**.

WHO WILL FOLLOW THIS NOTICE

This notice describes the health information privacy practices followed by our employees, staff and other clinic personnel. The practices described in this notice will also be followed by the healthcare providers you consult with by telephone (when your regular healthcare provider from our clinic is not available) who will provide "on-call coverage" for your healthcare provider.

YOUR HEALTH INFORMATION

This notice applies to the information and records we have about your health, health status, and services you receive at our clinic.

We are required by law to give you this notice. It will tell you about the ways in which we may use and disclose health information about you and describes your rights and our obligations regarding the use and disclosure of that information.

HOW WE MAY USE AND DISCLOSE HEALTH INFORMATION ABOUT YOU

For Treatment We may use health information about you to provide you with health treatment or services. We may disclose health information about you to doctors, nurses, technicians, clinic staff or other personnel who are involved in taking care of you and your health.

For example, your doctor may be treating you for a heart condition and may need to know if you have other health problems that could complicate your treatment. The doctor may use your health history to decide what treatment is best for you. The doctor may also tell another doctor about your condition so that doctor can help determine the most appropriate care for you.

Different personnel in our clinic may share information about you and disclose information to people who do not work in our clinic in order to coordinate your care, such as phoning in prescriptions to your pharmacy, scheduling lab work and ordering x rays. Family members and other health care providers may be part of your health care outside this clinic and may require information about you that we have.

For Payment We may use and disclose health information about you so that the treatment and services you receive at this clinic may be billed to and payment may be collected from you, an insurance company or a third party. For example, we may need to give your health plan information about a service you received here so your health plan will pay us or reimburse you for the service. We may also tell your health plan about a treatment you are going to receive to obtain prior approval, or to determine whether your plan will cover the treatment.

For Health Care Operations We may use and disclose health information about you in order to run the clinic and make sure that you and our other patients receive quality care. For example, we may use your health information to evaluate the performance of our staff in caring for you. We may also use health information about all or many of our patients to help us decide what additional services we should offer, how we can become more efficient, or whether certain new treatments are effective.

Appointment Reminders We may contact you as a reminder that you have an appointment for treatment or health care at the clinic.

Treatment Alternatives We may tell you about or recommend possible treatment options or alternatives that may be of interest to you.

Health Related Products and Services We may tell you about health related products or services that may be of interest to you.

Please notify us if you do not wish to be contacted for appointment reminders, or if you do not wish to receive communications about treatment alternatives or health related products and services. If you advise us in writing (at the address listed at the top of this Notice) that you do not wish to receive such communications, we will not use or disclose your information for these purposes.

You may revoke your Consent at any time by giving us written notice. Your revocation will be effective when we receive it, but it will not apply to any uses and disclosures that occurred before that time.

If you do revoke your Consent, we will not be permitted to use or disclose information for purposes of treatment, payment or health care operations, and we may therefore choose to discontinue providing you with health care treatment and services.

SPECIAL SITUATIONS

We may use or disclose health information about you without your permission for the following purposes, subject to all applicable legal requirements and limitations:

To Avert a Serious Threat to Health or Safety We may use and disclose health information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person.

Required By Law We will disclose health information about you when required to do so by federal, state or local law.

Research We may use and disclose health information about you for research projects that are subject to a special approval process. We will ask you for your permission if the researcher will have access to your name, address or other information that reveals who you are, or will be involved in your care at the clinic.

Organ and Tissue Donation If you are an organ donor, we may release health information to organizations that handle organ procurement or organ, eye or tissue transplantation or to an organ donation bank, as necessary to facilitate such donation and transplantation.

Military, Veterans, National Security and Intelligence If you are or were a member of the armed forces, or part of the national security or intelligence communities, we may be required by military command or other government authorities to release health information about you. We may also release information about foreign military personnel to the appropriate foreign military authority.

Workers' Compensation We may release health information about you for workers' compensation or similar programs. These programs provide benefits for work related injuries or illness.

Public Health Risks We may disclose health information about you for public health reasons in order to prevent or control disease, injury or disability; or report births, deaths, suspected abuse or neglect, non accidental physical injuries, reactions to medications or problems with products.

Health Oversight Activities We may disclose health information to a health oversight agency for audits, investigations, inspections, or licensing purposes. These disclosures may be necessary for certain state and federal agencies to monitor the health care system, government programs, and compliance with civil rights laws.

Lawsuits and Disputes If you are involved in a lawsuit or a dispute, we may disclose health information about you in response to a court or administrative order. Subject to all applicable legal requirements, we may also disclose health information about you in response to a subpoena.

Law Enforcement We may release health information if asked to do so by a law enforcement official in response to a court order, subpoena, warrant, summons or similar process, subject to all applicable legal requirements.

Coroners, Health Examiners and Funeral Directors We may release health information to a coroner or health examiner. This may be necessary, for example, to identify a deceased person or determine the cause of death.

Information Not Personally Identifiable We may use or disclose health information about you in a way that does not personally identify you or reveal who you are.

Family and Friends We may disclose health information about you to your family members or friends if we obtain your verbal agreement to do so or if we give you an opportunity to object to such a disclosure and you do not raise an objection. We may also disclose health information to your family or friends if we can infer from the circumstances, based on our professional judgment that you would not object. For example, we may assume you agree to our disclosure of your personal health information to your spouse when you bring your spouse with you into the exam room during treatment or while treatment is discussed.

In situations where you are not capable of giving consent (because you are not present or due to your incapacity or health emergency), we may, using our professional judgment, determine that a disclosure to your family member or friend is in your best interest. In that situation, we will disclose only health information relevant to the person's involvement in your care. For example, we may inform the person who accompanied you to the emergency room that you suffered a heart attack and provide updates on your progress and prognosis. We may also use our professional judgment and experience to make reasonable inferences that it is in your best interest to allow another person to act on your behalf to pick up, for example, filled prescriptions, health supplies, or X rays.

OTHER USES AND DISCLOSURES OF HEALTH INFORMATION

We will not use or disclose your health information for any purpose other than those identified in the previous sections without your specific, written Authorization. We must obtain your Authorization separate from any Consent we may have obtained from you. If you give us Authorization to use or disclose health information about you, you may revoke that Authorization, in writing, at any time. If you revoke your Authorization, we will no longer use or disclose information about you for the reasons covered by your written Authorization, but we cannot take back any uses or disclosures already made with your permission.

If we have HIV or substance abuse information about you, we cannot release that information without a special signed, written authorization (different than the Authorization and Consent mentioned above) from you. In order to disclose these types of records for purposes of treatment, payment or health care operations, we will have to have both your signed Consent and a special written Authorization that complies with the law governing HIV or substance abuse records.
